According the reviewers, the claimed invention should be rejected according to 3 suggested references: 6397209; 6480835 and 5708825. However, these 3 references cannot be applied at least in view of the claimed limitation, "updating the index with the created metadata", even the metadata is a keyword as further recited in the claims. The examiner continues the rejection in view of a minor informality of claims 33, 42 and an antecedent basis in claim 43 as suggested by the reviewers.	03/26/08	HP
